Product short description:

This tape manufactured by 3M™ is a double-sided adhesive tape formed from acrylic and high adhesion bonding, which offers exceptional durability and resistance to moisture, fire and high temperatures.

Easy to manage both bonding and cutting of the same. In some cases, it can be a good substitute for liquid adhesives, staples, rivets, and any type of fastener.

* The tape is 50 metres long, 10 mm wide and 1 mm thick.
