Product short description:

The luminaire is sold without a bulb.

Verona is a traditional series in a classic Scandinavian design. Verona is made up of two shades in beautiful opaline white glass that ensure the light is distributed evenly throughout the room. The contrast between the elegant opaline white glass and the matt black metal gives the series a modern expression.

The Verona suspension lamp diffuses a soft, glare-free light without compromising on luminous efficiency. As a result, you can use the pendant in many rooms of the house, for example above the dining table or coffee table.

The glass in this lamp is mouth-blown and has been individually hand-crafted. Because of this unique process, air bubbles can appear in the glass and the thickness of the glass can also vary. This is what gives the glass its character and lively appearance.
