Product short description:

The luminaire is sold without a bulb.

Detector	Dimensions:
Yes	See description

The Kanlux LIEGO garden lights have beautiful oval-shaped glass shades that allow the use of decorative filament-type LEDs, which will provide additional decoration while lighting the garden. They can be used not only to light the garden, but also in arbours, on terraces and patios, and wall lights can successfully light up a balcony. E27 replaceable LED light sources can be used throughout the family (hanging lights, posts, wall lights).
