Reference: 36545

EAN13: 5905339365453

UPC: -

Product short description:

The luminaire is sold without a bulb.

Detector	Dimensions:
No	See description

Kanlux LAVEN is a particularly elegant outdoor light. These garden lamps have a unique design based on a smoked shade connected to the rest of the luminaire by a diagonal line. Their unique style is enhanced by the filament LED light sources - particularly in the warm colours. A collar at the base of the Kanlux LAVEN poles makes it easy to fix the lamp in the ground. The family of luminaires includes two bollards: 50 and 80 cm, and two wall lights, one of which (SE) has a built-in motion and twilight detector.
