EAN13: 5905339365576

UPC: -

## Product short description:

The luminaire is sold without a bulb.

Detector	Dimensions:
No	See description

A simple, modern shape integrated into metal and glass characterises the Kanlux SELTO family of garden lights. Thanks to its shape, it is suitable for both classic gardens and those inspired by the Asian style (a reference to the shape of the pagoda). The additional functionality of the collar at the base makes the luminaire easy to install. Luminaires suitable for E27 light sources.
