Product short description:

The luminaire is sold without a bulb.

Base:	Dimensions:
GU10	(Ø x H) : Ø 56 x 400mm

Kanlux USTI luminaires are ideal for directional lighting of greenery, rockeries, facades or interesting architectural features that you want to highlight. The design, with its moveable head, allows the light to be freely adjusted and directed in the chosen direction. It is possible to choose a luminaire with one or two light points (the light elements can be positioned independently of each other). Kanlux USTI luminaires are compatible with GU10 sources.
