Power	Voltage	Angle	Dimmable
7.3W	230V	150°	Yes
Selectable temperature		Lumen	
3000 - 5000 - 6500K		570	

Kanlux PREDA is a multifunctional desk lamp. It features a high luminous flux (for a desk lamp) - up to 620 lumens (white model) - and is characterised by the ability to change the light colour. A special feature is the ability to tilt the arm of the lamp by 45 degrees around its own axis. The lamp has a USB port for recharging mobile devices. You can use this lamp to light up the office or a larger workspace. It can also be used in beauty salons.
