UPC: -

Product short description:

4000k

Power	Temperature	Lumens
24W	4000K	3120
Angle	Voltage	IP protection
110°	230V	65
Detector	Dimensions:	
No	Ø x H (mm): Ø 280 x 54	

Kanlux STIVI LED, Led porthole provides the right lighting for any construction project. It features a high luminous efficacy - 130lm/W, an equally high tightness level - IP65 and shock resistance IK08. The Kanlux STIVI LED luminaire can be used outdoors (walkways, passageways, balconies, terraces), in corridors and stairways, and in areas with high humidity (washrooms, changing rooms, swimming pools). The following parameters are also worth noting: 5-year guarantee and 50,000-hour service life, with the option of a porthole with or without a PIR motion detector. We recommend it for any new build or renovation project.
