Product short description:

The luminaire is sold without a bulb.

With its rough, industrial design, the Adrian series creates a contrast with the light, feminine Nordic interior. The interaction between the rough surface and the integrated screws reinforces the industrial expression. In contrast to the rough design, the lampshade casts a warm light downwards. At the same time, the light spreads into the room through the screws positioned to the side, offering a whole new lighting experience.

The functional Adrian suspension lamp can be adjusted to illuminate whatever you want. This means it can be used in a number of ways. It can be used above the dining table, in the kitchen or as a reading light next to a bed.
