Product short description:

The luminaire is sold without a bulb.

The elegant design of the Contina pendant completes the Contina series with carefully selected details that set the series apart. The light frame is complemented by a spherical opal white glass ball that hides the light source and diffuses a soft, glare-free light into the room. The slimness of the suspension ensures that it takes up minimal space in the room.

The combination of brass and opal glass creates a glamorous, modern expression of style.

The glass in this lamp is mouth-blown and has been individually hand-crafted. Because of this unique process, air bubbles can appear in the glass and the thickness of the glass can also vary. This is what gives the glass its character and lively appearance.
