UPC: -

Product short description:

The luminaire is sold without a bulb.

Brass is a trendy material for interior design. It creates a lovely contrast with light Nordic interior design. Brass is also incorporated into the design of the beautiful Galloway series, where the attractive details break up the simple, clean lines of the metal surface.

Add a decorative bulb to the elegant Galloway lampholder with its grooved surface and elegant brass details to create a beautiful suspension light both on and off. Supplied without bulb.
