Product short description:

The luminaire is sold without a bulb.

Grant is characterised by a perfect balance between simplicity and elegance, without unnecessary decoration, which enhances the shape and materials of the series. Its superb luminous glass dome is encircled by its structure, creating a perfect, decorative unit.

Grant also responds to current design trends by using brass and opaline white glass. Its brass mounting is an elegant detail that matches the top of the lamp for perfect unity. Grant is attractive on its own or in clusters, and can be advantageously combined with other pendant lights in the series.

The glass in this lamp is mouth-blown and has been individually hand-crafted. Because of this unique process, air bubbles can appear in the glass and its thickness can also vary. This is what gives the glass its character and lively appearance.
