Product short description:

The luminaire is sold without a bulb.

Arild is a series of modern design lights with an industrial touch. The round, matt white opal glass shade is elegantly complemented by burnished brass details. You can easily turn the light head to diffuse directional light. The glass in this lamp is mouth-blown and individually hand-crafted. Because of this unique process, air bubbles can appear in the glass and the thickness of the glass can also vary. This is what gives the glass its character and lively appearance.
