Power	Lumens	Voltage	Angle	Dimmable
40W	4000	230 V	120°	yes by remote control.

The CCT 60x60cm flat LED panel combines sleek design and cutting-edge technology to provide powerful, even, glare-free lighting. Thanks to its high luminous efficacy (100 lm/W), it has a power of 40W, adjustable up to 4000 lumens, and a CRI>80 for optimum light quality.

This panel includes a remote control for adjusting light intensity and colour temperature, from warm white to cool white, thanks to its CCT system. The remote control operates on 2 AAA batteries (not included) for easy, convenient use.
