Product short description:

The luminaire is sold without a bulb.

Detector	Dimensions:
No	See description

The Aleria model is a small lamp that takes up very little space while providing the right amount of functional light. With its soft shapes and elegant design, this lamp becomes a stylish decorative element for your outdoor space. Aleria is made from galvanised steel and is ideal, for example, at the entrance, at the front door or in the garage.

This product is part of our " Designed For Seaside " (suitable for coastal areas) range, made from highly durable materials to withstand the harshest coastal weather conditions.

Over time, exposure to wind and weather gives galvanised steel a beautiful darker patina.
