**2700k**

Power	Temperature	Lumens
13.8W	2700K	800
Angle	Voltage	IP protection
120°	230V	54
Detector	Dimensions:	
No	See description	

Imagine a lamp that can rotate freely after installation so that light and shadow create beautiful effects and transform the lamp into a luminous work of art on the wall. That's exactly what designer Henrik Bønnelycke has created. Turn is both playful and sculptural, as the magnetic shade can rotate through 360° so you can light exactly what you want. The lamp exudes Nordic minimalism, and modern design and functionality are combined in the most beautiful way. The lamp is moisture-resistant, so it can be used both indoors and outdoors in the bathroom.

Turn is made from white lacquered aluminium. The light can be dimmed and the lamp can be mounted in parallel with several other lamps, making Turn an incredibly practical lamp.
