

Dimmer for LED and traditional white button bulbs 4/25W

Product price:

€30.73 tax included

Product codes:

Reference: ARD037536

EAN13: 8057730522960

UPC: -

Product short description:

A dimmable LED bulb requires a carefully designed dimmer.

Connecting an LED bulb to a traditional dimmer often results in irregular operation, flickering light and a high risk of burning out the bulb.

Our button dimmer, on the other hand, has been designed for all types of bulb: traditional filament, energy-saving, dimmable and dimmable LED.

Designed and produced 100% in Italy, the LED dimmer with knob will allow you to regulate the intensity of light more comfortably and safely.
