Product short description:

The luminaire is sold without a bulb.

The designer's work is a fascinating journey into the world of unique design. This time, the destination of the journey has become LEHDET - light expressed in pure minimalist form inspired by the beauty of nature. The inspiration for the name comes from nature - because in Finnish "lehdet" means "leaf". The lamp will look best in large, high spaces such as shopping centres, lobbies, hotels, restaurants and luxury flats - and its impressive size guarantees unforgettable aesthetic impressions. The possibility of choosing the colour (per MOQ - 10 pcs.), the freedom to adjust the length of the suspension, guarantee infinite arrangement options, playing with form and creating unique compositions, like leaves blown by the wind over our heads.
