Product short description:

The luminaire is sold without a bulb.

This elegant lamp has a lot going for it, so no Scandinavian design fan will be indifferent. This is a wooden model, for which the main inspiration was a solid geometric cube. The natural hue of the applied material works well in a variety of arrangements - contrary to appearances, this is not an offering dedicated exclusively to Scandinavian interiors. You can easily integrate the ceiling into a classically furnished living room or a room where modernist trends dominate.
