Product short description:

The luminaire is sold without a bulb.

A combination of two colours and materials on the same lamp? It can work! Especially if, as in the case of the MOZAICA pendant lamp, it has a simple shape. It can light up both small and large rooms. It will work particularly well in the living room, giving it a unique and original character and making it an undeniable decorative feature. However, the kitchen, bedroom or dining room will also find its place, and will benefit from the light both during the day and in the evening.
