- The iconic Takai table lamp by Studio Mavro//Lefèvre by Sofie Lefèvre is inspired by architectural brutalism, which focuses on materials, textures and tactility. The solid brown marble base has an intriguing shape and is simply topped by a light fabric shade. Takai is a beautiful statement piece that invites you to look at it from many different angles. The combination of brown marble, linen and burnished brass creates a very soft and warm conceptual form.

Marble is a unique natural material, so lines, colours and patterns can vary from lamp to lamp. That's part of the charm of using natural materials.
