Product short description:

The luminaire is sold without a bulb.

With its original, industrial design, the Darci series from Bjørn + Balle adds a functional yet aesthetic touch to your home. Perfect as a bedside lamp, on the kitchen counter or anywhere else in your home that needs elegant, functional light. The beautifully curved lighting head is easily adjustable, whether for reading, working or simply achieving the right mood in the room. High-quality materials with a soft satin and matt surface create a sleek, modern look. A light touch on the touch-sensitive switch turns the lamp on and off.
