EAN13: 5704924002427
UPC: -

Product short description:

The luminaire is sold without a bulb.

- The MIB range has been extended to include an elegant, minimalist spotlight for ceiling mounting. The spotlight is designed to be mounted directly on the ceiling socket. As a result, the lamp does not switch on or off: it is controlled by a switch in the wall. The elegant, adjustable light head can be aimed where you need the light. The design is beautiful and simple, with a minimalist expression that blends in with a wide range of interior styles and decors. The MIB series is designed by Bønnelycke mdd.
