Product short description:

| | |
|-----------------|------------------------------|
| Power | Output voltage |
| 24W Max. | 18-42V DC / 300mA |
| Input voltage | IP protection |
| 85/277V 50/60Hz | 20 |
| Dimmable: | Dimensions*: (mm) |
| Yes 0-10V | (L x W x H): 96 x 36 x 25 mm |

Universal driver specially designed for Downlight, LED tiles and ceiling lights and other products that use a dimmable or non-dimmable LED driver.

An LED driver transforms the mains alternating current into direct current so that the LED chips can be lit.

To find out whether a driver will work with our luminaire, PCB or panel, you need to check the driver's output voltage and current.

ATTENTION you must consult the driver's output voltage and current.
