

Resistive load for 3w LED bulbs

Product price:

€5.15 tax included

Product codes:

Reference: 5454070

EAN13: -

UPC: -

Product short description:

This is a resistor to be connected in parallel with an energy-saving bulb or LED to obtain dimming.

Be careful, this resistor heats up, so keep it away from plastic materials and it does not work with all dimmers on the market.

"Supplied without connector
