

# Dimmable LED driver triac 6-7 W 9-13 VDC 240 - 260 mA

**55mm**

**Product price:**

**€5.84 tax included**

| Product Name | Led Driver Dimmable |
|--------------|---------------------|
| Power        | 6-7 * 1w            |
| Input        | AC 230V             |
| Output       | DC 9-13V            |
| Current      | 260 mA              |
| Size         | L 55 * W 28 * H 20  |

## Product short description:

|                  |                              |
|------------------|------------------------------|
| Power            | Output voltage               |
| 6-7W             | 9-13V DC / 240mA             |
| Input voltage    | IP protection                |
| 220/240V 50/60Hz | 20                           |
| Dimmable:        | Dimensions*: (mm)            |
| Yes TRIAC        | (L x W x H): 55 x 28 x 20 mm |

Universal driver specially designed for Downlight, LED tiles and ceiling lights and other products that use a dimmable or non-dimmable LED driver.

An LED driver transforms the mains alternating current into direct current so that the LED chips can be lit.

To find out whether a driver will work with our luminaire, PCB or panel, you need to check the driver's output voltage and current.

**ATTENTION you must consult the driver's output voltage and current.**
